

CELESTRON® #94003 – NEXSTAR 4/5/6 CARRYING CASE

Your NexStar carrying case is designed to safely carry your NexStar 4 /5 /6 telescope as well as any Celestron 8" SCT/EdgeHD optical tube. Your case also comes with a convenient storage pocket that holds all your telescope's standard accessories with room to expand.

Inside your case you will find two dense foam spacers and a built-in compression strap designed to customize the case for each telescope model. Configure the case for your telescope model as shown below, then use the compression strap buckle to hold your telescope securely inside the case.

NEXSTAR 4

Shown with long foam spacer under base.

NEXSTAR 5

Shown with long foam spacer under base.

NEXSTAR 6

Shown with no foam spacer required.

8" OPTICAL TUBE

Shown with long and short foam spacer along side.
