

BEFREE ONE – DATASHEET

befree one

Presenting the Befree One

Manfrotto introduces the new Befree One, extending the Befree range with an ULTRA COMPACT Traveller tripod for advanced hobbyists and professionals.

KEY BENEFITS:

- **Portability**
Designed to be ultra-compact and lightweight, Befree is the most portable Manfrotto tripod: it fits into hand luggage and backpacks and is easier to carry than any other tripod of its kind. Thanks to its unique mechanism, the tripod is only **32 cm (12.6in)** long when folded. The customized Quick Release Adaptor enables its foldable legs to pack very tightly.
- **Telescopic Column**
BeFree One features a new telescopic column that allows it to reach a maximum height of **130cm (51.18in)** while enabling it to become ultra compact when folded.
- **The BeFree inheritance**
Befree One inherits all the distinctive premium characteristics of the BeFree Family. Made in Italy, the tripod is easy to use and fast to set up thanks to its unique patented leg angles selectors. It features a new aluminum ball head with quick release and safety lock which ensure high quality images.
- **Transportability**
Befree One effortlessly follows you everywhere and is always comfortable to carry thanks to its padded carry bag. Extra padding makes it simple to pack in your luggage and protects it from any accidental damage.
