

LEM / VIS II

N

NOVOFLEX

The LEM/VIS II adapter set combines multiple functions, When completely joined together Visoflex II/III lenses can be focused to infinity with the Leica M240. The Visoflex reflex housing is no longer necessary with the M240. In addition, the rings can be combined in various ways to make flexible extension tubes for use with Leica M and Leica screw thread lenses.

LEMLEI + LEI-M
= extension 0,39 inch/10mm
for Leica M lenses
Image Scale: 0,28 : 1
with 50mm lens
