

Unilite 1600 J

Unilite 3200 J

- Corresponding emission characteristics of flash tubes and modelling light
- Can be equipped with 1600 J or 3200 J flash tubes
- Plug-in flash tube and protecting glass (with mechanical safety device)
- Quick release bracket
- Automatic locking mechanism of the light shaper (rotatable 360°)
- Built-in tilt head with locking lever for an optimal breaking effect
- Integrated umbrella holder
- Cooling fan and thermal protection
- Automatic adaptation to the respective mains power supply (after exchange of the halogen modelling lamp)

Flash energy	max. 3200 J
Modelling light (230 V)	halogen 300 W
Length lamp cable	5 m (16 ft)
Dimensions (Ø×L×H)	Ø 12.6 × 30 × 17.5 cm (4.9 × 11.8 × 6.9")
Weight (with cable)	2.8 kg (6.2 lbs)
Stand adapter	for bolts 12 mm, 3/8" thread and bolts 16 mm
